Comments regarding shift					

You should determine how your agents are prioritised on the shift game plan based on previous reviews and any AFT concerns. Your game plan may not materialise exactly as planned, so, please indicate changes on the sheet above by drawing arrows and adding or crossing off as they change during shift. Make sure that the action steps are logical based on the concerns you have listed. Have a GREAT shift! \*

MarianneRutz Consulting v1.0

<sup>\*</sup>Throughout the day please block out time for Agent Retention efforts between yourself and your team. Be sure to use this time effectively. The focus should be on that which will increase an individual's desire to remain with the company.
